

EXTRUTECH PLASTICS, INC.

"Custom Extruder of Close Tolerance Profiles"

MAINTENANCE & CLEANING INSTRUCTIONS

When properly maintained, our rigid PVC maintains its original profile and gloss. For cleaning our panels, we recommend mild detergent. Soap scum removers work very well. You may also use a low pressure washer, mild soap, and a soft cloth. Formula 409 or multi purpose cleaners also work well. Whatever you decide to use, make sure it is PVC compatible and do a small spot test. Use of abrasive cleaners is not recommended.

RECOMMENDED CLEANERS - Follow Manufacturer Directions Carefully
